1. The aircraft factory ZFG17 Dynamo at Kharkov employs 6,000 workers and is producing between forty and fifty single-engined aircraft, type Klepe YAK, per month. The factory employs German specialists, who are granted leave to visit relatives in Germany and who are well fed and paid. One specialist, who is paid 1,112 rubles per month, was recently granted 36 days leave to Germany.

50X1-HUM

September - December 1947

2. a. A large branch of a factory at Svaljava is being built in the locality of Sinak (near Svaljava) and is to produce armor-piercing munitions of a new type. Work has been in progress for 6 months and is well advanced.
- b. The factory branch will have five large reinforced concrete workshops, two of which will be underground, according to the statements of Slovaks and Carpatho-Russians from neighboring concentration camps, who have been employed in clearing the site and building a road between Sinak and Svaljava. They added that the work was being pressed on by the Soviet authorities and that eight Soviet construction (stroil) battalions had been transferred to Sinak and Dracina (near Svaljava) from the interior of Russia. The civil population of Sinak has been deported to Russia.
- c. The area embracing the localities of Svaljava, Sinak, Poljana, Voci, Nelipino, Dusina, Dracina, and Pasika is a prohibited area and is controlled by the MGB. The latter prevent the entry into this area of all persons not in possession of a special authorization, which it is impossible for civilians to obtain. Only 10% of the civil population remains in this area. There has been no similar deportation en masse from the other parts of the Transcarpathian district. Svaljava and the whole of the prohibited area constitute the military production region for the whole of the Transcarpathian district, and a large number of MGB troops are concentrated there. The officer commanding this area is Lt. Col. (MGB) Semen Grechukha; his HQ is at Svaljava.
